Hi Jeannie,

I have this email in the MASTER folder. Pulled it in from the various folders that you gave me last THU. All set.

Also, attached is the setup for the attachments for the RTC (Appendix J) with:

- J-1 the full Hearings Report (May 25+26)
- J-2 Emails/letters from agencies and representatives pulled out first, followed by all other original email from organizations and the public.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

For completeness, I also list in the first batch statements made by representatives, although don't include again their letters as they are already included in J-1.

Thanks,

Bernward

Subject: Dumping in the LI Sound

As an Orient, NY resident I am appalled that a proposal like this ever made it past the drawing board. The prevailing winds and currents will bring whatever toxic residue to our shores on the North Fork of Long Island.

I have yet to read a single article that has anything remotely positive to say about this idea. The Sound is a unique and fragile body of water and should be treated with the utmost care and respect.

Please do the right thing and scrap this horrible dumping of dredged materials in the Sound idea.
